Lindbom re-elected as PG-ERC Vice-Chairperson

Brussels, 13 May 2025. The Eurovent Product Group ‘Energy Recovery Components’ (PG-ERC) unanimously re-elected Rikard Lindbom as its Vice-Chairperson. His appointment affirms his continued leadership in one of the leading European HVAC working groups.

Rikard Lindbom, Product Area Director Energy Recovery at RECUTECH, brings over 16 years of experience in the energy sector, encompassing sales, production technology, and product management. He has been instrumental in advancing energy recovery technologies within the Heating, Ventilation, Air Conditioning and Ventilation (HVAC) industry. The Vice-Chairperson election took place during the group's meeting on 03 April in Zug, Switzerland, and he will fulfil this mandate for a two-year term, concluding in 2027.

Upon his re-appointment, Rikard Lindbom stated: “I am honoured to continue serving as Vice-Chairperson of the Eurovent Product Group ‘Energy Recovery Components’. Over the past years, we have made significant progress in promoting high-quality, energy-efficient solutions that support Europe’s transition to a more sustainable future. I look forward to continuing this journey to drive forward innovation that paves the way to sustainability together with our committed members and stakeholders.”

The Eurovent Product Group ‘Energy Recovery Components’ (PG-ERC) covers rotary heat exchangers, run-around coils and heat pipes. The group is engaged with European and national legislation regarding the European air conditioning industry. It is also concerned with developing EN, ISO and Eurovent standardisation.

About Eurovent

Eurovent is the voice of the European HVACR industry, representing over 100 companies directly and more than 1.000 indirectly through our 16 national associations. The majority are small and medium-sized companies that manufacture indoor climate, process cooling, and cold chain technologies across more than 350 manufacturing sites in Europe. They generate a combined annual turnover of more than 30 billion EUR and employ over 150.000 Europeans in good quality tech jobs.

Mission

Eurovent's mission is to bring together HVACR technology providers to collaborate with policymakers and other stakeholders towards conditions that foster fair competition, innovation, and sustainable growth for the European HVACR industry.

Vision

Eurovent's vision is an innovative and competitive European HVACR industry that enables sustainable development in Europe and globally, which works for people, businesses, and the environment.
