## SPX Cooling Technologies joins Eurovent as a member

**Brussels, Worcester, 04 November 2025. Eurovent is pleased to announce that SPX Cooling Technologies, one of the global leaders in cooling towers, fluid coolers, evaporative condensers, and air-cooled heat exchangers, has joined Eurovent as a Corresponding Member.**

Founded in 1924, SPX Cooling Technologies designs, manufactures, and services a wide range of cooling products under the well-known Marley, Recold, and SGS Refrigeration brands. Its solutions serve HVAC, process cooling, power generation, and industrial markets across the world. By joining Eurovent, SPX Cooling Technologies further strengthens its engagement with the European HVACR industry and demonstrates its commitment to advancing energy efficiency, sustainability, and innovation in cooling technologies.

After its membership by the Eurovent Board during the Eurovent Summit in Prague, Darek Sikorski, Manager of Sales Support at SPX Cooling Technologies, stated that: “ We are proud to confirm our membership with Eurovent. SPX is committed to supporting Eurovent to promote the awareness and growth of cooling technologies in Europe.”

As a Corresponding Member, SPX Cooling Technologies will have the opportunity to participate in Eurovent’s Working Groups and policy discussions, contributing its extensive technical expertise to support the association’s ongoing work on standards development and regulatory advocacy at the European level.

With this new membership, Eurovent continues to expand its representation of global manufacturers active in the European market. Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at [www.eurovent.eu](http://www.eurovent.eu). In case of any questions, contact the Eurovent Team via [secretariat@eurovent.eu](mailto:secretariat@eurovent.eu).

## About Eurovent

Eurovent is the voice of the European HVACR industry, representing over 100 companies directly and more than 1.000 indirectly through our 16 national associations. The majority are small and medium-sized companies that manufacture indoor climate, process cooling, and cold chain technologies across more than 350 manufacturing sites in Europe. They generate a combined annual turnover of more than 30 billion EUR and employ over 150.000 Europeans in good quality tech jobs.

### Mission

Eurovent's mission is to bring together HVACR technology providers to collaborate with policymakers and other stakeholders towards conditions that foster fair competition, innovation, and sustainable growth for the European HVACR industry.

### Vision

Eurovent's vision is an innovative and competitive European HVACR industry that enables sustainable development in Europe and globally, which works for people, businesses, and the environment.
