## Eurovent webinar on selection of molecular filters

**Brussels, 24 March 2026. Eurovent is pleased to invite industry stakeholders to an upcoming expert webinar on the selection of molecular filters for supply air for general ventilation. The session will take place on 07 May 2026 from 14:30 to 15:15 (Brussels time).**

This dedicated webinar will bring together experts from Eurovent's Product Group 'Air Filters' to present the latest Eurovent Industry Recommendation and provide practical insights into selecting molecular filters for ventilation systems rated according to ISO 10121-3.

Designed for HVAC professionals, including system designers, facility managers, and equipment manufacturers, the webinar will explore the growing importance of gas-phase filtration in maintaining high indoor air quality (IAQ). Participants will gain a deeper understanding of gaseous pollutants, their health impacts, and how molecular filtration complements traditional particle filtration.

Key topics and learning outcomes include:

- The importance of gas-phase filtration for indoor air quality (IAQ)
- Recognise the differences between particle and molecular filtration
- Learn how molecular filters are classified according to ISO 10121-3
- Apply Eurovent guidance to select the right molecular filter

The session will feature the following expert speakers:

- Dr Marc Schmidt – Vice-President Technologies Europe (AAF International)
- Karsten Howe – Product Management (TROX)
- Tobias Zimmer – Senior Vice-President Public Affairs, Sustainability (Camfil)
- Dr Thomas Caesar – Vice-President Global Filter Engineering (Freudenberg)

The individual presentations will be followed by a moderated Q&A session, where participants are invited to stir discussion on related issues. Register now and be a part of the Eurovent expert webinar 'Selection of Molecular Filters for supply air for general ventilation'. The webinar will be aired internationally on 07 May 2026 at 14:30-15:15h (Brussels Time).

Registration is free of charge and can be done via this [link](#).

## About Eurovent

Eurovent is the voice of the European HVACR industry, representing over 100 companies directly and more than 1.000 indirectly through our 16 national associations. The majority are small and medium-sized companies that manufacture indoor climate, process cooling, and cold chain technologies across more than 350 manufacturing sites in Europe. They generate a combined annual turnover of more than 30 billion EUR and employ over 150.000 Europeans in good quality tech jobs.

## Mission

Eurovent's mission is to bring together HVACR technology providers to collaborate with policymakers and other stakeholders towards conditions that foster fair competition, innovation, and sustainable growth for the European HVACR industry.

## Vision

Eurovent's vision is an innovative and competitive European HVACR industry that enables sustainable development in Europe and globally, which works for people, businesses, and the environment.
