Eurovent releases new guide on EPDs for air filters

Brussels, 31 March 2026. Eurovent announces the release of its latest Guide on Environmental Product Declarations (EPD) for Air Filters, providing practical guidance on assessing and communicating the environmental performance of air filtration products.

The guide establishes a consistent approach for developing EPDs for air filters, supporting improved transparency and comparability across the HVAC industry. It addresses the growing demand for reliable environmental data and helps stakeholders better understand the lifecycle impacts of filtration solutions.

Key benefits of the guide include:

- Harmonised methodology for EPD development
- Greater transparency of environmental performance
- Support for sustainable product selection and green building schemes
- Improved comparability between air filter solutions

The document was developed by Eurovent's Product Group 'Air Filters' (PG-FIL), bringing together industry experts and manufacturers to ensure a practical, consensus-based approach aligned with current standards and market needs.

The guide is available for download on the [Eurovent website](#).

About Eurovent

Eurovent is the voice of the European HVACR industry, representing over 100 companies directly and more than 1.000 indirectly through our 16 national associations. The majority are small and medium-sized companies that manufacture indoor climate, process cooling, and cold chain technologies across more than 350 manufacturing sites in Europe. They generate a combined annual turnover of more than 30 billion EUR and employ over 150.000 Europeans in good quality tech jobs.

Mission

Eurovent's mission is to bring together HVACR technology providers to collaborate with policymakers and other stakeholders towards conditions that foster fair competition, innovation, and sustainable growth for the European HVACR industry.

Vision

Eurovent's vision is an innovative and competitive European HVACR industry that enables sustainable development in Europe and globally, which works for people, businesses, and the environment.
